TROPICAL CYCLONE BULLETIN NR. 32F
Low Pressure Area (formerly "ADA")
Issued at 5:00 PM, 21 January 2026

"ADA" WEAKENS INTO A REMNANT LOW.

Location of Center (4:00 PM)

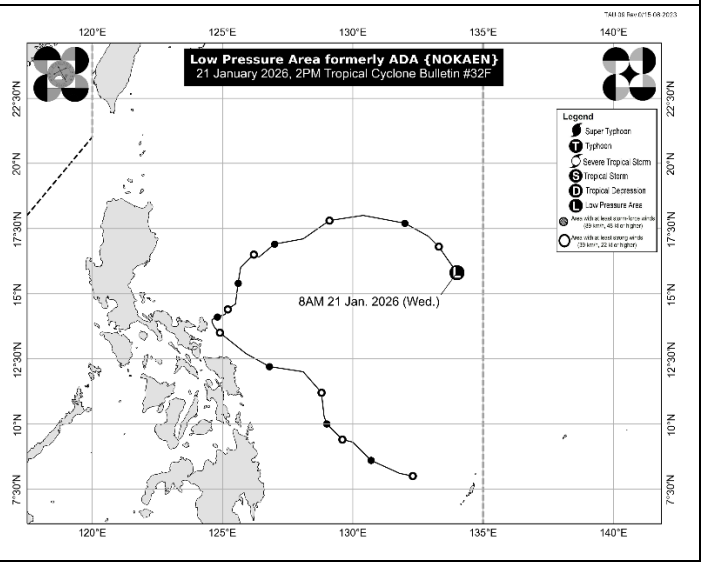
The Low Pressure Area (formerly "ADA") was estimated based on all available data at **1,285 km East of Central Luzon (15.4°N, 134.1°E).**

Intensity

Central pressure of **1004 hPa**

Present Movement

Southeastward at 20 km/h



TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT

No Wind Signal is currently hoisted

OTHER HAZARDS AFFECTING LAND AREAS

Severe Winds

The surge of the Northeast Monsoon will also bring strong to gale-force gusts over the following areas (especially in coastal and upland areas exposed to winds):

- **Today (21 January):** Most of Luzon, Visayas, Caraga, Davao Region, Zamboanga Peninsula, Camiguin, Misamis Oriental, Lanao del Norte, Basilan, and Tawi-Tawi.
- **Thursday (22 January):** Most of Luzon, Visayas, Caraga, Davao Region, Northern Mindanao, Zamboanga Peninsula, Lanao del Sur, Basilan, and Tawi-Tawi.
- **Friday (23 January)**: Most of Luzon, Visayas, Caraga, Davao Region, Northern Mindanao, Zamboanga Peninsula, Lanao del Sur, Basilan, and Tawi-Tawi.

TROPICAL CYCLONE BULLETIN NR. 32F
Low Pressure Area (formerly "ADA")
Issued at 5:00 PM, 21 January 2026

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the seaboards of Northern Luzon and the eastern seaboards of Luzon and Visayas. For more details, refer to Gale Warning No. 4 issued at 5:00 PM today.

24-Hour Sea Condition Outlook

Up to very rough seas over the following coastal waters:

- **Up to 5.0 m:** The seaboards of Batanes, Babuyan Islands, mainland Cagayan, Isabela, and Ilocos Norte.
- **Up to 4.5 m:** The seaboards of Ilocos Sur and Aurora; the northern and eastern seaboards of Polillo Islands, Catanduanes, and Northern Samar; the northern seaboards of Camarines Norte and Camarines Sur; the eastern seaboards of Albay, Sorsogon, Eastern Samar, Dinagat Islands, and Siargao-Bucas Grande Islands.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The remaining seaboards of Ilocos Region; the seaboard of northern mainland Quezon; the western seaboard of Pangasinan.
- **Up to 3.0 m:** The seaboards of Zambales, Kalayaan Islands, and Surigao del Sur; the eastern seaboards of Davao Oriental; the remaining seaboards of Polillo Islands and Catanduanes.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The seaboards of Caluya and Cuyo Islands.
- **Up to 2.0 m:** The seaboards of Oriental Mindoro, Occidental Mindoro including Lubang Islands, Marinduque, and Antique; the eastern seaboard of southeastern Iloilo; the western seaboard of Bataan and northwestern Zamboanga del Norte; the seaboards of Batangas; the remaining seaboards of Palawan.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

TRACK AND INTENSITY OUTLOOK

Due to dry air entrainment from the surge of northeast monsoon, ADA weakened into a low pressure area at 2:00 PM today. The remnant low will continue to move southeastward to southward and may dissipate within the next 48 hours.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

Unless re-development occur, this is the final bulletin for this weather disturbance.
